

COMPETITIVE GRANTS

EDUCATION *and* ECONOMIC DEVELOPMENT

We believe that every child should have access to a high-quality education, including a post-secondary experience that leads to living-wage employment. Our grants support programs that help close the academic achievement gap. Build pathways from high school to future success. Reduce unemployment. Prepare workers with the job skills employers need to remain local and profitable. Fight discrimination in the workplace. Secure fair earnings for working people.

Responsive grants support specific programs and projects that serve a community need, or seize an opportunity for impact.

GO Grants provide stability for core nonprofit partners delivering services essential for thriving communities, including basic human needs, healthcare, community safety, arts and culture, economic and community development, immigration services, nonprofit sector sustainability and sustainable development.

Together, these complementary grant programs enable The Chicago Community Trust to achieve its commitment to a region where everyone can thrive.

HEALTH, HOUSING and HUMAN SERVICES

We work to improve the quality of life for all residents of our communities. Our grants support programs across the entire housing spectrum: to prevent and end homelessness; boost affordable rental housing; prevent widespread foreclosure that hollows out neighborhoods. They help keep people healthier: provide greater access to quality care, reduce chronic disease. Our grants help fight hunger with a stronger network of food pantries, meal programs and fresh produce for food deserts. They support programs reforming the justice system and reducing crime rates to make neighborhoods safer.

CIVIC *and* CULTURAL VITALITY

We are committed to enhancing the vibrancy of our culture in ways that promote regional prosperity and build community. Our grants infuse arts organizations with the resources to truly reflect Chicago’s diversity. To provide arts education to young people, in and out of schools. To become more sustainable, serving as enduring anchors in their neighborhoods. We support programs that make data and information more available to leaders and residents alike, providing common ground for conversation—and change.

Programmatic GO Grants are awarded to support nonprofit programs that promote cultural vitality and provide arts education.

SUSTAINABLE DEVELOPMENT

We know that a sustainable region depends on building up truly sustainable communities, where development balances regard for economy, environment and equity. Our grants support nonprofits working at a systemic level—to address wide-scale issues of the built environment, climate, energy and natural systems—and at a community level—to create a cohesive landscape of livable, walkable, economically viable neighborhoods with access to employment and open space alike.
